Summer Training Program

JavaScript with Board Infinity - Board Infinity

- Developed JavaScript-based web applications and interactive UI components.
- Gained hands-on experience with DOM manipulation and event handling
- Built **interactive and dynamic web elements**, such as modals, dropdowns, and form validations.
- Integrated APIs to fetch real-time data and update UI dynamically, enhancing user engagement

Projects

Library Management System | MySQL, Python

Jan 2024 - Feb 2024

- Developed an **automated system** to efficiently manage book records and borrower details for a library.
- Designed and implemented a **relational database using MySQL** to store book and user data securely.
- Integrated **user authentication with role-based access control** to distinguish between admins and borrowers .
- Created a **user-friendly Python interface** that allows library staff to **manage inventory, track borrowed books, and generate reports**.
- Ensured **database integrity** and optimized SQL queries for **faster retrieval and transaction processing**.

Laptop Repair System | MySQL, C++

Nov 2023 – Dec 2023

- Designed a **robust system** to track and manage **laptop repair requests** efficiently.
- Implemented a **user management system** that allowed customers to **submit repair requests**, while technicians could update repair status.
- Integrated a **feedback mechanism** for customers to **rate services** and provide valuable insights for **service improvements**.
- Developed a **reporting module** that generated **analytics on repair trends, customer satisfaction, and service turnaround times**.
- Optimized **system performance** by streamlining **MySQL queries** and implementing **efficient data storage techniques**.

Certifications

Cloud Computing – NPTEL	Oct 2024
Excel Skills for Business Specialization – Coursera	April 2024
Programming in C++: A Hands-on Introduction – Coursera	Feb 2024

Technical Skills

Languages C++, R, SQL, Python

Tools/Frameworks: Tableau, TensorFlow, OpenCV, MySQL, MS EXCEL

Skills: Data Structures and Algorithms, Problem-Solving, Hypothesis Testing, Regression Analysis, A/B Testing

Education

Lovely Professional University Punjab

2022 – 2026

Bachelor of Technology - Computer Science and Engineering; CGPA: 7.53

Jalandhar, Punjab

Army Public School Delhi Cantt

2020 – 2021

Intermediate; Percentage: 86%

New Delhi, Delhi

Army Public School Delhi Cantt

2018 – 2019

Matriculation: Percentage: 90.4%

New Delhi, Delhi
